IEEE
STUDENT BRANCH, VIT PUNE

About IEEE Student Branch

Established in 1999, IEEE Student Branch, VIT Pune, is one of the institute's oldest and most prominent technical clubs, built on a vision to innovate, learn, and contribute to the betterment of society.

Over the years, the club has carried forward an untainted legacy shaped by accomplished alumni, professors, and students. Its members have consistently distinguished themselves—not only through technical pursuits and leadership, but also as they step into opportunities beyond college.

At IEEE, you become part of a community where knowledge is shared, ideas are explored, and people grow together.

Why should you join IEEE?

Build Your Skills

Learn beyond the classroom through technical sessions, hands-on experiences, and real-world exposure.

Gain Real Experience

Work on industrial projects, organise events, solve challenges, and turn your knowledge into something meaningful.

Learn From Those Ahead

Get guidance from seniors who've already navigated academics, projects, placements, and opportunities.

Build Your Network

Connect with seniors, alumni, professors, professionals, and peers who can shape your college journey—and beyond.

Find Your People

Collaborate, create, celebrate wins, and make friendships and memories that last far beyond college.

Learn. Build. Connect. Grow.

Don't just go through college. Make something out of it with IEEE.

Domain Roles and Responsibilities

Domain	Roles & Responsibilities
Technical	• Being a technical club, this domain happens to be the face of the student branch. • Plan, curate and execute technical workshops, coding sessions, and hackathons; develop and maintain club website/apps; provide tech support during events; mentor juniors on programming and relevant tech stacks; set up and troubleshoot equipment for events. • Explore emerging technologies and research trends; mentor members in research methodology, paper writing, patents, and technical documentation; organize research workshops and paper reading sessions; collaborate with faculty on research initiatives; encourage publications, conferences, and innovation challenges while maintaining the club's research repository.
Curation	Plan event themes, formats, and schedules; shortlist speakers, judges, or mentors for events; coordinate with technical team to finalize problem statements/topics; ensure event flow aligns with club objectives.

Finance	Prepare and manage event budgets; track expenses and maintain transaction records; handle reimbursements and vendor payments; ensure funds are utilized efficiently and report to club heads/faculty coordinator.
Sponsorship	Identify and reach out to potential sponsors (companies, startups, alumni); draft sponsorship proposals and decks; negotiate sponsorship deals and deliverables; maintain sponsor relationships and ensure post-event deliverables (branding, reports) are fulfilled.
Management	Oversee overall event logistics and on-ground coordination; manage volunteer teams and assign responsibilities; liaise with college administration for permissions/venues; handle registrations, participant queries, and day-of-event execution.
Graphics	Design posters, banners, certificates, and social media creatives; maintain consistent visual branding across all materials; create event merchandise designs (if any); collaborate with content and SM teams for creative alignment.

Video Editing	Shoot and edit event highlight reels, teasers, and aftermovies; edit promotional videos and reels for social media; manage video archives of past events; assist in live streaming/recording during events.
SM and PR	Manage club's social media handles (Instagram, LinkedIn, etc.); plan and schedule posts, stories, and promotional campaigns; handle public relations with other clubs, colleges, and media; track engagement metrics and grow follower base.
Content	Write event descriptions, captions, newsletters, and blog posts; draft scripts for videos and anchoring; proofread and edit all written communication; create content calendars in coordination with SM team.
Aesthetics	Plan on-ground event decor and stage setup; curate the visual experience (backdrops, standees, seating arrangement); coordinate with graphics team for print materials; ensure overall ambience matches event theme. Being one of the most active domains of the club, it brings together all members of the club irrespective of their domains.
